Cloud-Services
Tailored to your requirements

Your challenge
Do you need flexible IT services so that you can quickly react to new market trends and requirements regarding digitalisation while always keeping the customer in mind?

Our solution
To enable you to tailor and implement cloud services optimally for your business, DB Systel offers you various server and database variants along with associated performance classes. These are scalable and can be booked directly by you (self-service).

All Windows and Linux servers contain 40 GB of basic memory for system data. Additional memory can be booked as of 50 GB. This is calculated separately (based on standard prices). Databases do not contain any memory. You are free to choose the size of the additional memory to be booked. Here, too, billing is based on standard prices. The Bronze support level is included. If required, you can supplement our service portfolio with support-on-demand and optional services.

Prices and specific technical features can be found in the price document available on our website at db.de/mc (updated regularly).

What cloud fits in with your business? Get in touch with us – we will be happy to advise you.

Great flexibility and scalability of infrastructure services in the cloud

The benefits for you:
❚ Flexibility when ordering and cancelling infrastructure services
❚ Automatic switch-on and switch-off (as required) for purchased services, e.g. during office hours
❚ Front-end services for ordering and managing purchased services (self-service)
❚ Enterprise support from the cloud service provider
❚ Compliance and security requirements fulfilled by DB Systel
❚ Integration into DB billing processes
❚ Virtual data centre and network infrastructure operated by DB Systel

Product components
❚ Server variants (Windows 2016, AWS Linux 2, Red Hat Enterprise Linux) in various performance classes
❚ Database variants (PostgreSQL, MariaDB, Oracle SE Two, Microsoft SQL Server SE) in various performance classes
❚ Bronze support level
❚ Support on demand
